

In the Claims

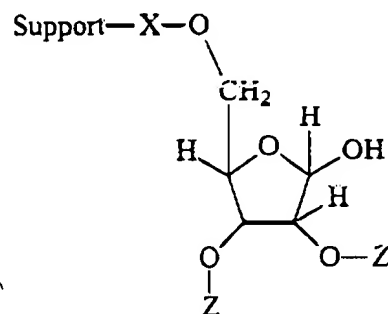

Please add the following new claims:

Claim 108 (new):

A solid support for the solid phase synthesis of polynucleotides comprising the formula:

or

wherein P is a protecting group;

X is an alkylene group;

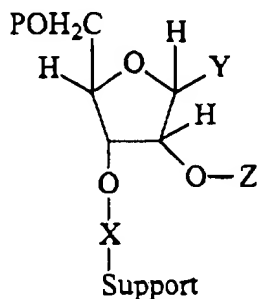

Z is hydrogen or a protecting group;

Support is the solid support; and

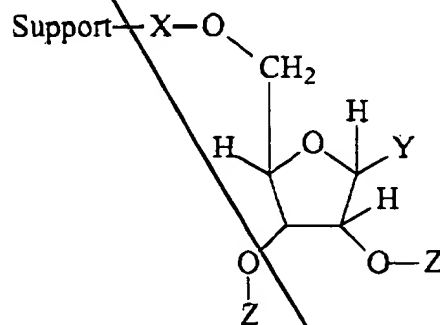

wherein said support is attached to the cyclic compound through a functionalized 3' or 5' group on said cyclic compound that is reactive with an alkylene radical group attached to said support.

Claim 109 (new):

A solid support for the solid phase synthesis of polynucleotides comprising the formula:

or

[Docket No. GEN-T104D1
Serial No. 09/076,956]

H1 (concl'd)

[3]

wherein P is a protecting group;

X is an alkylenyl group;

Y is a purinyl or pyrimidyl base;

Z is hydrogen or a protecting group;

Support is the solid support; and

wherein said support is attached to the polynucleotide through a functionalized 3' or 5' group
on said nucleotide that is reactive with an alkylenyl radical attached to said support.
